

The applicant is now requesting authority to expand the general-purpose zone to include an additional site (proposed *Site 3*—43 acres) at the Airport Business Center, adjacent to the T.F. Green State Airport, Warwick. This zone site would become part of the City of Warwick's economic development and industrial revitalization efforts.

No specific manufacturing requests are being made at this time. Such requests would be made to the Board on a case-by-case basis.

In accordance with the Board's regulations, a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

Public comment on the application is invited for interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is January 16, 1996. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period January 29, 1996. A copy of the application and accompanying exhibits will be available for public inspection at each of the following locations:

Foreign-Trade Zone 199, Texas City, TX Proposed Foreign-Trade Subzone Marathon Oil Company (Oil Refinery Complex) Texas City, Texas

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the Texas City Foreign Trade Zone Corporation, grantee of FTZ 199, requesting special-purpose subzone status for the oil refinery complex of Marathon Oil Company, located in Texas City, Texas. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally filed on November 6, 1995.

The refinery complex (200 acres) consists of 2 sites in Galveston County, Texas City, Texas: *Site 1* (170 acres)—main refinery and petrochemical feedstock complex located at 1320 Loop 197 South in east Texas City; and *Site 2* (30 acres/859,300 barrel capacity)—South Tank Farm located at Dock Road and Loop 197 South across from the refinery.

The refinery (74,000 barrels per day; 260 employees) is used to produce fuels and petrochemical feedstocks. Fuels produced include gasoline, jet fuel, blending stock, distillates, residual fuels, and naphthas. Petrochemicals include methane, ethane, propane, butane, benzene, toluene, xylene, propylene. Refinery by-products may include sulfur and petroleum coke. Some six percent of the crude oil (90 percent of inputs), and some feedstocks and motor fuel blendstocks are sourced abroad.

Zone procedures would exempt the refinery from Customs duty payments on the foreign products used in its exports. On domestic sales, the company would be able to choose the finished product duty rate (nonprivileged foreign status—NPF) on certain petrochemical feedstocks and refinery by-products (duty-free). The duty on crude oil ranges from 5.25¢ to 10.5¢/barrel. The application indicates that the savings from zone procedures would help improve the refinery's international competitiveness.

In accordance with the Board's regulations, a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is January 16, 1996. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period (to January 29, 1996).

A copy of the application and accompanying exhibits will be available for public inspection at each of the following locations:

Amorphous Silica Filament Fabric From Japan, Revocation of the Antidumping Duty Order

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of revocation of antidumping duty order.

SUMMARY: The Department of Commerce (the Department) is notifying the public of its revocation of the antidumping duty order on amorphous silica filament fabric from Japan because it is no longer of any interest to domestic interested parties.

EFFECTIVE DATE: November 14, 1995.

FOR FURTHER INFORMATION CONTACT: Leon McNeill or Michael Panfeld, Office of Antidumping Compliance, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street & Constitution Avenue NW., Washington, DC 20230, telephone (202) 482-4236.

SUPPLEMENTARY INFORMATION:

Background

The Department may revoke an antidumping duty order if the Secretary concludes that the duty order is no longer of any interest to domestic interested parties. We conclude that there is no interest in an antidumping duty order when no interested party has requested an administrative review for five consecutive review periods and when no domestic interested party objects to revocation (19 CFR 353.25(d)(4)(iii)).

On July 31, 1995, the Department published in the Federal Register (60 FR 38989) its notice of intent to revoke the antidumping duty order on amorphous silica filament fabric from Japan (September 23, 1987). Additionally, as required by 19 CFR 353.25(d)(4)(ii), the Department served written notice of its intent to revoke this antidumping duty order on each domestic interested party on the service list. Domestic interested parties who might object to the revocation were provided the opportunity to submit their comments not later than the last day of the anniversary month.
